

Distance Learning Plan

Olson's Schedule

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00 -10:00	Office Hours 651-317-9609	Office Hours 651-317-9609	Office Hours 651-317-9609	Office Hours 651-317-9609	Office Hours 651-317-9609
11:00	Pre-Calculus Zoom	Pre-Calculus Zoom	Math Modeling Zoom	CIS Calculus Zoom	Advisory Zoom: 11:30
1:00	CIS Calculus Zoom		Pre-Calculus Zoom	Math-Modeling Zoom	Pre-Calculus Zoom

- Office Hours
 - Daily 8:00 - 10:00 AM
 - Call or Text :**651-317-9609**
- Zoom meetings
 - Join a class zoom meeting by accessing the link through google classroom or e-mail (See schedule above)
 - Contact Mrs. Olson to schedule an individual zoom meeting
- E-mail: molson@afsahighschool.com
- Call or Text: **651-317-9609**

What a transition this has been for everyone. The thought of my classroom sitting empty saddens me. I miss seeing all the smiling faces (and even the not so happy faces) everyday. I miss the math debates and curiosity that make everyday interesting and unique. Although we will not be meeting in person, the math department is working diligently to make this transition as smooth as possible and bring the same high level mathematics the students are used to receiving.

I will use GoogleClassroom for my distance learning class. Students should have received an email in their AFSA email with information on how they can add themselves to each class. Parents can also access Google Classroom to help monitor student assignments by sending a message to the teacher to be added to the class. The teacher will send an invitation to the parent's preferred email address upon receiving this request.

Google Classroom Websites:

Students, check your e-mail for an invitation to google classroom or contact Mrs. Olson for information on how to join.

Materials will also be delivered from AFSA for hard-copy materials that students cannot access online and for students with limited access to technology. This may include books, worksheets, or other hands-on materials. The day/time of your delivery will be scheduled by our transportation department.

Assignments and Due Dates:

Assignments and due dates will be posted on google classroom (or sent to students). Students should upload assignments in google classroom. Any student needing an extension for any assignment should contact me to make an alternate plan. Assignments will be updated in powerschool within 1 week.

My classes will include a combination of online and textbook assignments, videos, discussions, modeling projects, and tests/quizzes.

As we work together to adjust to this new method of learning, please be patient with everyone during time. Teachers are adjusting to a new way of teaching, new technologies, and learning the best ways to share knowledge with our students. Students are adjusting to new schedules, isolation of not being at school, and learning new material in very different ways. You may be juggling working from home, entertaining children, and trying to remember all that math from so long ago to help your students out. Please remember during this time to be patient. Encourage your student to reach out to their teachers, whether they need math help or just to say hi. We miss our students.

Stay Well!
